ALBANY WATER BOARD

MINUTES OF REGULAR MEETING

A regular meeting of the Albany Water Board was officially convened at 9:00 AM, in the Conference Room at the Albany Water Board, 10 North Enterprise Drive, Albany, NY on Friday, August 24, 2018.

PRESENT: Charles Houghton, Chairman; Dan Ranellone, Vice Chairman; Anthony Owens, Treasurer; Barbara Smith, Member

BOARD MEMBERS EXCUSED: Rachel Johnson, Secretary

STAFF PRESENT: Joseph Coffey, P.E., Commissioner; Thomas Dufresne, CFO; William Simcoe, P.E., Deputy Commissioner; Emily Lyons, Confidential Assistant

BOARD ADVISORS PRESENT: William Kahn, UHY Advisors; Madalyn DeThomasis, Assistant Corporation Counsel; Robert Hennes, Hugh Johnson Advisors; Marisa Franchini, Deputy Corporation Counsel

Approval of July 27 Regular Meeting

Chairman Charles Houghton introduced the minutes of the Regular Meeting held on July 27, 2018. With no objection, the reading of minutes was dispensed and Mr. Houghton called for a motion to approve the minutes of said meeting. A motion was made and seconded and passed unanimously.

Public Comment Period

No public comments.

Financial Reports

Investments Report: Robert Hennes, Hugh Johnson Advisors, LLC

It is currently an excellent environment to invest as odds of recession are low. It is expected for the Fed to continue raising interest rates. The report distributed shows the current funds and yield rates. The bonds are liquid and any penalties for withdrawal would be minimal, but it does help to have a schedule.

Management Letter Discussion: Jamie Cote, The Bonadio Group

The board has been in compliance with the State Comptrollers' requirements and has met auditing standards. The letter lists a few items for the board to address:

- Senior discounts policy should be adopted by the Board to match the City's policy. This should also be represented in the rate schedule.
- Capital projects: The board should adopt a policy to capitalize multi-million dollar repairs. The current grant and project documentation needs to have better tracking. The board needs to have policies for receiving federal dollars that meet federal procurement rules.
- Albany Water Dept. should get access to use the City's accounting software, as the lack of access has caused delays in the past.

- Increase periodic tabulation of inventories to make sure everything is captured on balance sheets.
- Increase staffing levels with an experienced accountant level professional to complement existing staff.

Albany Water department staff will follow up with a response to the management letter at the next board meeting.

MTD/YTD Financial Report: Thomas Dufresne, Chief Fiscal Officer.

Negative cash flow this month, but expenses still under budget. YTD cash flow is positive, similar to last year. Expenses are up about \$600,000 because of new staff positions filled, workers compensation. We believe revenue is impacted by large users working to save money/water.

2019 Draft Budget Proposal: Thomas Dufresne, Chief Fiscal Officer; Joseph Coffey, Commissioner This proposal looks at staffing and forecasts into the future. It also incorporates a potential rate increase of 3%, and price increase estimates for supplies (example – steel). The department used actual amounts of expenses, historical trends and analyzed the equipment costs from the bottom up. AWD final version of budget proposal for 2019 will be submitted to the City Council on October 1st. The potential rate increase could be adopted by the board in September, and a public meeting to be held in October.

The budget includes updates on staffing (removing some positions, upgrades on titles to others); improvements such as use of drones, cloud based software, outreach/communications and safety. The budget also includes cost saving measures such as a decline in the Board's property taxes, barcoding of inventory and a light duty return to work program. In conclusion, building space is still an issue, as the department is still evaluating options and costs.

Rate Increase: William Kahn, UHY Advisors

The Rate increase chart shows the historical trends of rates and changes to the tiers over the years. It is remarkable that there has been 7 years without a rate increase, and that the new proposed increase is only for 3%, with other small increases over the next few years.

Commissioner's Report: Joseph Coffey, P.E., Commissioner

2017 Large Diameter Trunk Sewer Rehabilitation Project — Washington Park sewer: There was an emergency repair to fix the trunk sewer in Washington Park and the change order was approved last month. The trunk sewer work on Myrtle is finished, and we delayed Park Ave. to address Washington Park work.

2018 CIPP Lining Project Status Report: Project is going well and is under budget. Considering extending the contract to do more lining. The increased communications/outreach eliminated public complaints this year.

<u>Floatables Project – construction status report:</u> A public hearing is being set up for Sept. 23. Construction at Orange Street has not begun yet, and the Jackson/Livingston site is under Archeology review.

Beaver Creek Clean River Project Community Outreach - status report: Department staff met with County Sewer about new design of the Facility to stop handing screenings at the park; which would remove the need for the building. Held a community advisory meeting recently and received feedback on the conceptual plan of the Reflection Garden for the ravine. The plan is being revised to be shared with the Advisory Committee again in late September.

<u>Beaver Creek Phase 6 Project</u>: Construction will be happening in September. Also, increasing information on the project on the website and social media. This project should help mitigate flooding at the N Main/Chestnut intersection. Will be presenting at Melrose Neighborhood association in September to talk about flooding and backups.

<u>Feura Bush WTP Employee & Public Space Improvements – Project Update:</u> Staff are currently moving into new temporary building. We will be adding a project webpage and including a picture.

Tivoli/Patroon Creek Daylighting Status Report: Bids to be received in September.

Upper Washington Ave Sewer PS and Force Main Project update: Only one bid was received for general construction and it was much higher than estimate. AWD engineers will review, but we may need to re-bid before Sept. 18. This experience shows we may need to pay for estimates in the future, or increase contingencies for estimates.

<u>Hydrant Inspection & Flushing Program – community outreach status report:</u> The interactive map of hydrant flushing locations in now live and the postcards have been sent to about half of the City.

<u>Backwater Valve Grant Program:</u> The \$1,500 grant amount has been fixed since the program began in 2008. The proposed increase to 2,000 will add value for our customers and help with the resiliency of our system. The current budget is \$100,000 per year.

Old Business

<u>Guilderland Water Purchase Agreement</u>: The two agreements presented are beneficial to both parties.

<u>Alcove – Nature Conservancy:</u> An agreement is close with Mohawk Hudson Land Conservancy and should be ready by next month.

Executive Session

The Board entered executive session to discuss pending litigation in relation to the Coeymans Property Assessment. No action was taken in Executive Session.

Resolutions

Mr. Houghton called for a motion to approve each of the following resolutions. A motion was made for each and seconded; each resolution passed unanimously; besides resolution 18-73, which Dan Ranellone abstained from voting on due to conflict of interest as a New York State Employee.

- Resolution 18-66: Authorizing Chairman to execute Water Purchase Agreement with the Town of Guilderland
- Resolution 18-67: Authorizing Chairman to execute Memorandum of Understanding: Use of Dillenbeck Force Main with Town of Guilderland

- **Resolution 18-68:** Authorizing Payment of \$2,468.75 to Hugh Johnson Advisors for quarterly investment services for the period 4/1/18 6/30/18
- Resolution 18-69: Authorizing Advertisement for Bids for Construction of Normans Kill Farm Drainage and Access Road Improvements
- Resolution 18-70: Authorizing Transfer of \$2,100,000 from On-Going Funds Account to Capital Account 8350.7530 (Feura Bush Filtration Plant) For WTP Wastewater Lagoon Project
- Resolution 18-71: Authorizing Transfer of \$200,000 from On-Going Funds Account to Capital Account 8350.7530 (Feura Bush Filtration Plant) For Alcove Sodium Permanganate Facility Project.
- **Resolution 18-72**: Authorizing an increase in the reimbursable Backwater valve grant to \$2,000, retroactive to January 1, 2018.
- **Resolution 18-73:** Authorizing Chairman to sign a letter of support for the Regional Biosolids Treatment Authority. (Dan Ranellone abstained).
- Resolution 18-74: Authorizing Marisa Franchini to negotiate a settlement with Coeymans.

Being no further business, Mr. Houghton called for a motion to adjourn the meeting. A motion was made, seconded and passed unanimously. The meeting was adjourned at 11:00 AM.

Next regular meeting of the Water Board is scheduled for Friday, September 28, 2018, 9:30am. Finance Committee meeting is scheduled for Friday, September 28, 8:30am.

Recorded by: Emily Lyons, Confidential Assistant

Approved by:

Charles Houghton, Charperson

2019 Budget Presentation

Department of Water & Water Supply

Mission

 The Department of Water and Water Supply will deliver a reliable and high quality supply of water to our customers, including fire protection; we will collect and safely convey wastewater to treatment facilities and comply with all of our regulatory permit requirements and conditions; we will provide a safe work environment for our employees; we will provide courteous, responsive and professional service to our customers and a work environment that is supportive and respectful of each other.

Core Values

SAFETY

CUSTOMER SERVICE

PROFESSIONALISM

SUSTAINABILITY

Vision

 We aspire to be the model public water and sewer utility in the Northeast

Goals

- We will provide a safe and reliable water supply to all of our customers.
- We will collect and transport wastewater safely and in a manner that protects the public at all times.
- We will achieve all regulatory goals.
- We will manage stormwater to minimize threats to public health and safety.
- We will meet all milestones and conditions of the Long Term Control Plan Consent Order.
- We will emphasize safety training and workplace performance and behaviors to strive for no missed work days resulting from work place injuries
- We will invest as stewards to protect and preserve the long-term functionality and sustainability of our infrastructure, including creating a detailed inventory of fixed assets to be updated annually to account for new and rehabilitated assets
- We will invest and incorporate technology to increase operational efficiency (e.g. leak detection, advanced metering technology, SCADA)
- We will implement performance based metrics aligned with department goals and track as key performance indicators

Narrative

- The Department of Water & Water Supply continues to implement our business model addressing the operation and maintenance challenges of aging infrastructure; investing in both the water and sewer systems; complying with all regulatory requirements, and meeting scheduled milestones associated with the Consent Order for Combined Sewer Overflows.
- We are incorporating sustainability in our capital improvements, notably green infrastructure stormwater management.
- We continue to implement technology to increase productivity and enhance customer service.
- We are stressing safety as a core value and in our daily work plans.
- We have developed, and are implementing detailed a 5-year Capital Plan, updated annually.
- The Department is planning \$17.7 million in capital projects in 2019.
- The Department is budgeting 2019 revenue of \$34.9 million and expenses of \$30.9 million (before debt service and capital expenses).
- The Department is budgeting a headcount of 170 personnel in our 2019 budget, a decrease of 7 positions from 2018 budget (elimination of unfilled full time positions and eliminating all part-time guard positions and other duplicated seasonal positions).

2019 New Initiatives

- In 2019, we will be implementing a Cloud based Maintenance Management system and Inventory Management software.
- In 2019, we are adding a dedicated crew for Green Infrastructure maintenance.
- The Department will be launching a drone program with 3 drones, 6
 FAA certified drone pilots for watershed management, security,
 stormwater management, leak location and emergency
 management.
- Sewer SCADA Phase 3 13 new SMART Covers for a total of 27 data collection and archiving sites on the sewer collection system.
- The Department has implemented enhanced community outreach/communications with a dedicated staff specialist.
- The Department has retained Capital Safety Services to assist our focus on safety, incident investigation and prevention and assistance in developing a Light Duty/Return to work program.

2019 Revenue Anticipation & Grant Opportunities

- The Department is proposing a 3% rate increase in 2019.
- The Department will receive grant reimbursements in 2019 from prior year grant awards (Albany-Colonie emergency water interconnection, Floatables).
- The Department has applied for \$14.22 million in CFA grants for drainage, stormwater management and flood mitigation projects in the Hackett Blvd and Sheridan Ave. areas.
- The Department received a \$500k grant from NYSDOH for lead water service line replacement
- The Department anticipates revenue in 2019 from the sale of carbon credits associated with our Working Woodlands Program with The Nature Conservancy.
- The Department is investing in equipment to perform water testing services for a fee.

2019 Cost Savings Measures

- We have locked in commodity prices via 2018 bulk contracts.
- Expect savings in property taxes with lower assessment in Coeymans.
- Barcoding inventory and migration to full digital CMMS platforms.
- Return to Work/Light Duty to lower workers compensation costs.

Conclusion

- The Department of Water & Water Supply (Albany Water Board & Albany Municipal Water Finance Authority) completed an independent audit of our 2017 Financials. We completed 2017 with a surplus of \$8.893 million before debt service payment of \$5.682 million, and a debt service coverage ratio of 1.57(required debt service coverage ratio is 1.15). This ratio highlights the current financial strength of the Board/Authority and its ability to fund capital projects through cash-flow, absorb additional short-term debt under the LTCP, and maintain stability in the rate structure. After payment of debt service, the surplus is invested to provide future funds for capital projects.
- We are forecasting to end 2018 with a surplus of \$7.008 million before debt service payment of \$4.798 million.
- Our 2019 Budget projects a surplus of \$6.376 million before debt service \$5.084 million, and a net decrease of 7 employees for a 2019 budget staffing level of 170.
- Our Department's challenges are: risks associated with potential failure of critical aging infrastructure; lack of space at our main office at 10 N. Enterprise Drive; determining the best future use of our property at 35 Erie Blvd.
- The Albany Water Board is proposing a 3% rate increase for 2019. The rate increase is necessary to maintain debt service coverage as we absorb new debt for capital projects associated with the Long Term Control Plan, and continue our investment in our water and sewer infrastructure outlined in our 5 Year Capital Plan.

WATER PURCHASE AGREEMENT ALBANY WATER BOARD AND TOWN OF GUILDERLAND

THIS AGREEMENT, made the day of, 2018, between the ALBANY WATER
BOARD, a public benefit corporation with office located at 10 North Enterprise Drive, Albany
NY 12204, herein referred to as "BOARD", and on behalf of its water districts, and the TOWN
OF GUILDERLAND, a municipal corporation with office at 5209 Western Turnpike
Guilderland, NY, 12084, herein referred to as "TOWN"; collectively the Board and Town shal
be herein referred to as the "PARTIES".

WITNESSETH:

- 1. The Board is the owner and operator of a potable water system in the County of Albany, State of New York, and is engaged in the production and distribution of water to consumers in the City of Albany, State of New York ("CITY") and to outside customers with purchase agreements.
- 2. The Town is the owner and operator of a potable water system located in the Town of Guilderland, State of New York, and is engaged in the production and distribution of water to consumers in the Town of Guilderland, State of New York.
- 3. The Town wishes to obtain additional sources of water to supplement its existing water supply and the Board wishes to furnish such supplemental water to the Town.
- 4. The Board shall sell and deliver to the Town, and the Town shall purchase and receive from the Board an amount of potable water, which shall not exceed 35,000,000 gallons per month but shall be a minimum of 70,000,000 gallons per year in aggregate as adjusted in accordance with Article 12 of this Agreement. The maximum rate of usage shall not exceed 1,400 gpm (2.0 million gallons per day).
- 5. The Town shall pay the Board for potable water purchased at the Residential Rate in effect for City residents subject to the minimum annual purchase amount of 70,000,000 gallons. For the term of this Agreement, the Town shall pay the City Residential Rate subject to the same percentage increases and the same penalties fixed from time to time by

WATER PURCHASE AGREEMENT ALBANY WATER BOARD AND TOWN OF GUILDERLAND

resolution of the Board for potable water furnished through meters to residential customers within the corporate limits of the City. The Town shall receive prior notice of any increase in rates consistent with the notices provided to City residents.

- 6. The Town shall pre-pay for a full year (January to December) of minimum water purchase (70,000,000 gallons or gallons as adjusted per Article 12 x the Residential Rate) on January 15th of each year this Agreement is in effect. For the year 2018, the Town shall pay the City the amount of \$249,900 (70,000,000 gallons X 3.57/1000 gallons the Residential Rate in effect) within 30 days of the execution of this Agreement. If the total annual minimum purchase is exceeded in aggregate at any time during a year, the additional purchase amount will be billed to the Town by the Board at the Residential Rate on a monthly basis within thirty (30) days of such exceedance and every thirty (30) days thereafter until the end of the year, and the invoices for the overage shall be payable by the Town within thirty (30) days of the billing date.
- 7. The Board shall operate and maintain facilities to deliver water within the terms of this agreement to the existing interconnection between the Board and Town water systems. The Board shall be permitted to inspect interconnections and require periodic verification of water meter accuracy from the Town, which the Town agrees to provide. Either party may, on reasonable notice to the other, provide a verification of water meter accuracy at its own cost and expense. The Board shall install and maintain equipment to allow for and enable remote telemetry of flow signal.
- 8. In accordance with Part 5 of the New York State Sanitary Code, the entry point for water purchased from the Board shall be at its points of removal from the City's distribution system. The Town shall assume responsibility for monitoring and reporting entry point turbidity data, shall satisfy all other reporting or notification requirements of said code or other applicable law. The Board shall provide the Town with copies of water quality tests submitted to the Albany County Department of Health.
- 9. In the event of a water supply emergency, the Board and the Town shall work cooperatively to share available water resources.

August 15, 2018 2

WATER PURCHASE AGREEMENT ALBANY WATER BOARD AND TOWN OF GUILDERLAND

- 10. In the event of a water deficiency in accordance with Section 371-51 of the Code of the City of Albany, or the material breach of this Agreement by the Town, the Board reserves the right and shall have sole and absolute authority to reduce, cease or otherwise restrict delivery of potable water to the Town. Notwithstanding the foregoing, before the Board may reduce, cease or otherwise restrict delivery of potable water to the Town by reason of any breach by the Town of this Agreement, the Board shall provide written notice to the Town Supervisor by certified mail and the Town shall have a period of sixty (60) days to cure such breach. The Town shall impose water conservation measures at least equal to those imposed within the City when notified by the Board to do so.
- 11. The Board shall not be responsible for any claims or damages associated with or attributed to the failure to supply water or for interruption of the supply of water to the Town. The Town agrees to indemnify, defend and hold harmless the Board and the City of Albany from all damages to persons and property and to the Board's water supply occasioned or caused by the furnishing of water hereunder and shall also indemnify, defend and hold harmless the Board and the City of Albany harmless from all damage of every kind, nature and description which may arise as the result of the making of this Agreement, except for any of the damages due to the negligent or intentional actions of the Board or the City, their agents or employees.
- 12. The term of this Agreement shall be for a period of ten (10) years, commencing on January 1, 2018 and ending at 11:59 PM ten (10) years hence. For the first five years of this Agreement, the Town shall pay the City for an annual demand of 70,000,000 gallons at the Residential Rate in effect each year plus any excess demand as outlined in Article 5 of this Agreement. In year five of this agreement, the Parties shall review the actual annual water demand of the Town for the prior four years resulting in a mutually agreeable adjustment to the purchase demand for years six through ten of this Agreement. This Agreement may be renewed through mutual written Agreement of the Parties for any additional term mutually agreeable within the confines of General Municipal Law Article 5G.

MEMORANDUM OF UNDERSTANDING USE OF DILLENBECK FORCEMAIN

THIS MEMORANDUM OF UNDERSTANDING, entered into this ___ day of August, 2018, between the ALBANY WATER BOARD, a public benefit corporation with office located at 10 North Enterprise Drive, Albany, NY 12204, herein referred to as "BOARD", and on behalf of its water districts, and the TOWN OF GUILDERLAND, a municipal corporation with office at 5209 Western Turnpike, Guilderland, NY, 12084, herein referred to as "TOWN"; collectively the Board and Town shall be herein referred to as the "PARTIES".

WITNESSETH:

- The Board is the owner and operator of a sewer system in the County of Albany, State of New York, and is engaged in the collection and conveyance of wastewater from consumers in the City of Albany, State of New York ("CITY") ultimately to the Albany County Water Purification District ("COUNTY") for treatment and discharge.
- 2. The Town is the owner and operator of a sewer system located in the Town of Guilderland, State of New York, and is engaged in the collection and conveyance of wastewater from consumers in the Town of Guilderland, State of New York ultimately to the County for treatment and discharge.
- 3. The Town relies on the sharing the Board's Pine Bush Trunk Sewer to affect the proper conveyance of wastewater to the County of up to 1.1 MGD at no charge from the Board.
- 4. The Board wishes to convey, with infrastructure financed, owned and operated by the Board, up to 200,000 gallons of sewage through the Town-owned Dillenbeck Forcemain from a point of interconnection along the Dillenbeck Forcemain route, a proposition to which the Town is amenable. The Board shall prepare engineering plans for the interconnection which shall be reviewed by the Town.

Feura Bush WTP Lagoon 2 Slope Mitigation and Site Improvements Project Summary

The Feura Bush Water Treatment Plant Sludge Lagoon facility lies at the top of a steep slope, which descends approximately 70 feet to the Onesquethaw Creek below. Following site explorations and engineering evaluations performed in 2016 and 2017 by Schnabel Engineering, it was concluded that the steepest portion of the slope north of Lagoon 2 was only marginally stable and posed a risk to the northeastern portion of the lagoon and the Onesquethaw Creek. Based on the findings of the evaluations, the Albany Water Department effectively removed Lagoon 2 from service, and is currently using only Lagoon 3 for sludge dewatering.

The current proposed project at the Feura Bush site includes measures to stabilize the slope and reconfigure a portion of Lagoon 2. The project also incorporates several additional site improvements to support short- and long-term operations. The stabilization of the slope to Onesquethaw Creek includes excavating and regrading the existing slope to 1.5 horizontal to 1 vertical (1.5H:1V) and constructing a 20-foot wide sacrificial bench at the toe of the regraded slope above the 100-year flood elevation. The reconfiguration of Lagoon 2 will consist of removing a portion of the northeastern perimeter berm to accommodate the regraded slope and constructing a new berm, with access road and fencing, south of the existing alignment. A portion of the lagoon liner and underdrain system will also be replaced with a similar design and installation.

Other site improvements include raising and widening the "lagoon sludge overflow spillway" sections between Lagoons 1 and 2 and between Lagoons 2 and 3 to allow for an increase in lagoon storage capacity, relocating the chain link fence and gate at the site entrance to improve safety and ease of access, and removing the abandoned water supply transmission main bridge spanning the Onesquethaw Creek.
